ARMISTICE SIGNED

FIGHTING TO END IN FRANCE TO-MORROW: DISSIDENT FRENCH GOVERNMENT MAY BE SET UP IN COLONIES

IMMEDIATE SURRENDER OF ALL ARMED FORCES AND ENEMY OCCUPATION

SPECIAL TO THE "TELEGRAPH"

THE FRENCH PLENIPOTENTIARIES HAVE SIGNED THE ARMISTICE AGREEMENT WITH GERMANY.

The first report to this effect was received by "United Press" in Hongkong in an urgent cable at 4 a.m., stating that the Armistice had been signed at Compiègne at 6.50 p.m. (2.50 a.m. H.K.T.).

Subsequently, the official Berlin-Radio and D.N.B. simultaneously announced the conclusion of the Armistice.

NAZI BROADCAST OF CEREMONY

SPECIAL TO THE "TELEGRAPH"

BERLIN, June 22 (UP).—Berlin-Radio to-night broadcast an electrical transcription of the actual signing of the Franco-German armistice.

The broadcast included a declaration by General Huntzinger who headed the French delegates.

"Before I sign this armistice at the French Government's order I would like to make a personal statement," he said.

"Forced by the fate of arms to give up the fight in which she was engaged with both her allies, France has been forced to accept conditions whose severity must be emphasised. France expects future negotiations with Germany will be imbued with a spirit which will enable both great nations to live in peace in the future."

"I appeal to the soldiers' spirit in the hope that the French will never have to regret the step we are now taking."

General Keitel, head of the German delegates replied saying: "We can only answer that it is honourable for the victor to honour the vanquished."

After the signing of the armistice, an unidentified voice, apparently General Keitel, said: "I ask both delegations to rise and fulfil our duty to one brave enemy."

"Let us salute those who gave their blood for their country on both sides."

LOST TOWN FOUND

Strange Discovery In Peru

SPECIAL TO THE "TELEGRAPH"
LIMA, June 22 (UP).—A town of 80 white families who have been without contact with outside civilisation for 25 years has been discovered at the mouth of the Rio Pinquen, in the southeast corner of Peru.

A corps of Peruvian aviators under Captain Contorno found the town while flying the Axsolwenegra Expedition, in the Madreses Department.

Spanish stock went there hunting rubber in 1915. They knew the World War had broken out but did not know the outcome of it.

They are all Catholics and strictly monogamists though no formal marriage ceremonies are performed.

All appeared to be healthy and strong and there were many children.

They avidly read the newspapers given to them by the aviators.

AMERICAN REACTION

"Reuter" Story Of The Agreement

NEW YORK, June 23 (Reuter).—American broadcasting companies state that General Huntzinger signed the Armistice on behalf of France and General Keitel signed on behalf of Germany.

After the signatures, General Keitel paid a tribute to both the French and German deities.

The speech, considerably moved, is interpreted as the first act of appeasement between Germany and France.

The "Cease Fire" order will not be given until six hours after the signing of an Italo-French Armistice.

There was apparently no animosity between the German and French plenipotentiaries during the conversations.

The talks were conducted through the medium of an official interpreter, Dr. Schmidt, who interpreted the faithful talks in Berlin before the war between Hitler and the British and French Ambassadors, and who interpreted during the talks between Chamberlain and Hitler in September, 1938.

A message from Washington states that the news of the signing of the Armistice has been received with disappointment in the American capital.

Up to the last, it had been hoped that France, while abandoning the fight at home, would carry on from colonial territory.

29's JOIN THE ARMY

Another 300,000 For Britain's Defence

LONDON, June 22 (Reuter).—Between 200,000 and 300,000 men who reached the age of 29 last year registered for military service to-day.

When the over 30's register next month they will have the choice of entering the armed forces or the police or the auxiliary fire brigade.

Men up to 50 years of age are wanted for the last two services, which must be kept up to strength. No one will be permitted to leave these particular branches of Home

General Keitel, the German Commander-in-Chief, signed on behalf of Germany. M. Huntzinger signed on behalf of France. The Armistice does not become effective until six hours after the conclusion of an Italo-French Armistice.

The French plenipotentiaries have left Compiègne by plane for Rome to conclude an Armistice with Italy. It is expected in Berlin, says a later "United Press" message that the "Cease Fire" order will be given on all fronts on Monday.

The terms of the Armistice have not been disclosed, says "United Press", that they provide for the complete disarmament of France on land, the sea and in the air, German and Italian occupation of France until the termination of hostilities with Britain; the cessation of Alsace and Lorraine, the surrender of all war stores, gold and foreign currency reserves and coal immediately and the surrender later of other commodities.

"United Press" reports from Bordeaux that a dissident French Government may shortly be set up on foreign soil or in a French colony.

Official Nazi Report
SPECIAL TO THE "TELEGRAPH"
BERLIN, June 23 (UP).—The official DNB News Agency reports: "The German high Command announces that on June 22 at 6.50 p.m., German Summer Time, the Armistice between Germany and France was signed in the Compiègne Forest."

"Colonel General Keitel, Chief of the High Command, signed for Germany at the order of the Fuehrer, the supreme commander of the armed forces."

"General Huntzinger signed for France at the order of the French Government."

"The cessation of hostilities is not yet provided for. The cessation will take place six hours after the conclusion of an Armistice between Italy and France."

"Nothing can yet be announced regarding the contents of the Armistice agreement."

French Cabinet Meeting
SPECIAL TO THE "TELEGRAPH"
BORDEAUX, June 22 (UP).—The Government sat at 1 a.m. till 4 a.m. studying the German terms for an armistice. The Government, presided over by President Lebrun, met again at 6.30 a.m. after experts studied the specific demands.

The Government will continue their meeting to-day. Meanwhile, there is nothing known about the German terms beyond the indication that they are complicated and long.

Appeal To French People
SPECIAL TO THE "TELEGRAPH"
NEW YORK, June 23 (UP).—The German Wireless reports from Geneva that the French radio had announced the signing of the armistice to the French people.

According to the German version the French announcer said: "Prevailing circumstances made the signing of the German condition absolutely necessary."

"The French people look to Marshal Poincaré with thanks and confidence. There is only one thing left for the French—to work in discipline and alliance with the solemn pledge Turn to Page 2, Fifth Column

Armistice Talks Start With Italy:

SPECIAL TO THE "TELEGRAPH"
ROME, June 23 (UP).—The French plenipotentiaries have arrived in Rome to open negotiations for an Armistice with Italy.

There is no change in the delegation.

Fighting on the Western Front will not conclude until an Italo-French armistice has been signed.

It is believed the Italian demands will be even stiffer than those from Germany.

Writing in "La Telegrafo" this morning, Giovanni Ansaldo states that Germany and Italy will demand that France join the "Totalitarian Bloc" for the reconstruction of Europe.

"The present democratic regime in France is finished," he asserts.

French Report

SPECIAL TO THE "TELEGRAPH"
BORDEAUX, June 22 (UP).—The Minister of the Interior has issued the following communique: "Only after discussion with Italy can this Government reach a definite conclusion in the double negotiations, and take the decision required by the interests of the nation."

SPECIAL TO THE "TELEGRAPH"

The text of the resolution has not been announced; however, it is believed it will be similar to those adopted by other French Colonies and territories in recent days.

ALEXANDRIA, June 22 (UP).—It is reliably reported that Greek waters have been mined presumably by the Italians.

All Greek shipping has been halted.

FRENCH CAPITULATION IN ALSACE AND LORRAINE CLAIMED IN COMMUNIQUE

SPECIAL TO THE "TELEGRAPH"

The German High Command claims that the French armies surrounded in Alsace and Lorraine have capitulated.

Half a million men have laid down their arms, according to the communique.

It is alleged that the Maginot Line has almost completely been reduced, and that resistance is now being encountered in only a few sectors.

Scattered French forces in the Vosges area continue to resist.

A communique by the High Command claims that fortifications at Garardmer, St. Malo and Lorient have been reduced.

Last night's official French war communique states that the Germans continued to push southwards in the lower Loire region yesterday.

The Germans are pushing towards La Roche, Suryon and Pottiers. They have accentuated their pace in the Rhone Valley area.

The Italians have launched attacks along the entire front from Mont Blanc to the sea, but they are being held everywhere.

SPECIAL TO THE "TELEGRAPH"
BERLIN, June 23 (UP).—D.N.B. reports that the Maginot Line is now held by the French at only two points—both sides of Deleghoven and at Haguenau.

"The military and moral resistance of France has collapsed completely. The German right wing in France has reached the southernmost point at Thouray. Huge gasoline, coal and oil depots have fallen into German hands," the report says.

JAPANESE OCCUPY THE WHOLE BORDER AREA

A Japanese communique issued in Canton this morning claims that both Shataukok and Shumchun have been occupied by Japanese forces.

The Japanese are now strung out all along the Hongkong frontier.

It was reported yesterday morning that no more than 800 Japanese troops were participating in the operations. Unconfirmed reports this morning suggested that there might be 5,000.

The military authorities in Hongkong emphasise that there is absolutely no cause for alarm at the present Japanese operations.

The Japanese High Command in Canton issued the following communique last night: "Fresh military operations have been started in the area north of Hongkong."

"Six Japanese detachments landed in the Po On and are now driving into the area north of the British leased territory."

"Japanese aircraft severely bombed the Chinese positions near Po On in support of the operations of their land forces."

"Reconnaissance reveals that the landing operations had been completed."

"At 9 o'clock the Japanese had reached Pakshok."

"Japanese troops landed at Chekwan and Namshan."

"Domel" Report
"Domel" adds the following apparently inspired report to the communique: "Informed quarters (in Canton) declare that the fresh Japanese operations are designed to intercept the new Chinese supply route which has been opened under cover of the foreign territory during the absence of Japanese troops from the border area."

"It is recalled that Japanese forces had been stationed in the Po On sector until December, but evacuated on December 30 in order to meet the desires of the British authorities, and also to give practical significance to the partial re-opening of the Pearl River."

"The Japanese military authorities clearly declared on the occasion of the withdrawal that military operations would be resumed in case the Chinese irregulars resumed subversive activity in the border area."

Border Quiet To-day
Police reported the border all quiet this morning. There has not been any resumption of the refugee influx and there has been no fighting reported.

The border areas remain under police control but Indian troops detachments have been moved up to reserve positions behind the frontier.

The Japanese forces, according to reports, have nowhere approached closer than a mile to the border.

Small fires could still be seen from the British territory burning in the villages which the Japanese bombed from the air during their advance yesterday.

LONDON, June 23 (UP).—Authoritative sources here said "there is no confirmation in London of the French having signed the armistice as reported by German sources."

It is understood here that the French have presented counter claims.

Meanwhile reports arriving here from the French Empire throughout the world clarify the feeling that the French colonies favour continuing the war. Some have indicated that if the central government surrenders, they will continue if necessary under British orders.

I.R.A. PLOT UNCOVERED

Sensational Case Opens In Dublin

LONDON, June 21 (Reuter).—A code which is alleged to have been found in a house in Dublin was mentioned in the Dublin Court to-day.

This allegation was made when Stephen Carroll held appeared under the Emergency Powers Act charged with offences against the State, including conspiring with unknown persons to usurp the function of the Government by maintaining an armed force styling itself the I.R.A., and obtaining on behalf of that force \$20,000.

Mr. McCarthy, K.C., who is prosecuting in the case, described the charges as of very great gravity in view of the epoch-making events which are taking place outside Eire.

Evidence In Camera
He said that there were a number of documents which the prosecution contended would show the existence of a code at Held's house.

He submitted that the evidence about the code would have to be heard in camera.

He added that a wireless transmission set and a passport, indicating that Held had visited Belgium in April of this year, were among the articles found in Held's house.

Mr. McCarthy further stated that Held said he knew nothing about the transmitting set.

When asked to account for the parachute he said he did not know what was war.

Funds For New Building
Mr. McCarthy said that the safe in Held's house contained \$18,500.

He added that Held had made a statement describing the arrival at his house of a stranger, Heinrich Brandy, who said his father was formerly the Dublin agent for a Cologne firm.

Held put him up. Held also stated that last October, some men, representing themselves as being of the old I.R.A. association, had asked him to become custodian of funds for a new building. They told him the Government recognised the association.

They gave him \$31,000 on different dates.
